DUNCAN REPORT UNDER REVIEW AT CONFERENCE

Provincial Premiers Also Discuss Matter of Federal Subsidies

OTTAWA, Nov. 9.—Federal subsidies to the nine provinces and the Duncan report on maritime claims were again under review at Tuesday's deliberations of the provincial premiers' conference. For six hours these matters were debated and at the time of adjournment it was announced that the discussion would be continued today.

A possibility exists that consideration of these questions may delay the conclusion of the conference until Thursday.

New Brunswick, Prince Edward Island, Saskatchewan and Nova Scotia held the floor throughout the day. For New Brunswick Premier J. B. McEwen declared that questions before the conference should not be discussed in the light of "Grit or Tory." All the recommendations made by the Duncan commission should be carried into effect by federal legislation.

Stand as Individuals.

"The Maritimes," stated Premier Borden, "stand as individuals who have had a judgment rendered in their favor." Dr. Borden made reference to the western lands. He said that the western lands had any claim upon them but he said that the west chose a "free their consideration" for those who had shared the load so that those lands could be made valuable by agriculture and other developments. Borden said that had been said in the conference, the maritime provinces still believed in confederation.

Attention was then turned to Prince Edward Island. Borden said that the province could not be done with the premier of Prince Edward Island who had been one of the subject paid only \$10,000 per year.

For Saskatchewan, Premier J. G. Gardiner opened the idea that the west was inclined to say either part of the Dominion for its lands. The western provinces had "owed a debt to the eastern provinces for having sent their sons and daughters to the west for settlement here. Western lands, he pointed out, had been right in the province and not one part of Canada was helping to pay the subsidies which the provinces were receiving in lieu of lands. With the opening of the Hudson Bay railway, Borden said, the establishment between the maritime and the west would be added to the property of both.

Earlier in the day, C. R. Harrington, for Nova Scotia, voiced the opinion that the Duncan report might have been made more attractive. For Prince Edward Island, Premier A. C. Saunders pleaded for "better terms" to his province.

Steamship Runs Ashore on Finlayson Island

VANCOUVER, B. C., Nov. 9.—The steamer "Clack" of the Canadian Pacific Limited, which was bound for Finlayson Island, ran ashore on the island of Finlayson, B. C., while en route from Stewart to Prince Rupert. Reports state that the passengers have been taken off and that two lives are standing by. Information in the course here from the captain of the ship says the vessel is in no danger and it is hoped to refloat by tomorrow. The "Clack" is a small coastal trading passenger and freight.

Two Men Are Sentenced on Conspiracy Charge

TORONTO, Nov. 9.—Harold W. Field and John C. McEwen were sentenced to two years in Penitentiary for conspiracy to defraud the Canadian Pacific Limited. They were the first of the stockholders and managers to be disposed of in connection with the Washington company case.

The two men had pleaded guilty to the charges of conspiracy to defraud the Canadian Pacific Limited. They were charged with having conspired to defraud the company of more than \$100,000 from the company.

DETROIT MAYOR LIES

DETROIT, Mich., Nov. 9.—John W. Smith, running for re-election on a platform of opposition to the Prohibition laws, had a bad oral John C. Lodge, supported by the opposition, on the first night of his campaign. Smith's opponent, the Prohibitionist, charged that Smith was a liar.

THE ITALIAN LINER PRINCIPESSA MAFALDA, bound from Genoa to Rio de Janeiro, Brazil, sank with 1,600 passengers on board and a loss of many lives. The fatality occurred 130 miles southeast of the Port of Bahia. "S.O.S." calls brought other ships to the rescue, but in spite of heroic work the casualty list was a long one. The captain of the ship went down with her. She was believed to have struck a reef.

THE WATERSPOUT AT SEA is often read of and seldom seen. This one was photographed 75 miles off the coast of Sweden when it passed the ship at little more than 100 yards distance. An hour later it was seen again in the distance. A heavy disturbance which threatened the safety of the ship was experienced at close quarters to the phenomenon.
